Lab Observations

EXPERIMENT - 11

Illustrate the concept of multithreading using a C program.

PROGRAM:

```
#include <stdio.h>
#include <pthread.h>

void *thread_function(void *arg)
{
    printf("Thread is running\n");
    return NULL;
}

int main()
{
    pthread_t thread;

    if(pthread_create(&thread, NULL, thread_function, NULL) != 0)
    {
        printf("Thread creation failed\n");
        return 1;
    }

    pthread_join(thread, NULL);

    printf("Main thread completed\n");

    return 0;
}
```

OUTPUT:

Thread is running
Main thread completed

Process exited after 0.1132 seconds with return value 0
Press any key to continue . . .
